EXPERIENCE

VasyERP Solutions (by Reliance Industries)

Ahmedabad, Gujarat

Junior Software Developer

2023.08-Present

- Engineered an HSN switch-based tax calculation feature in the Supplier and Sales modules within 10 working days using Agile methodologies to meet stakeholder demands. The solution enabled accurate tax computations for taxable value and unit cost, boosting operational productivity.
- Designed and developed 11 comprehensive reports from scratch, incorporating various client-specific type masters. Delivered the solution in just 5 working days, meeting tight deadlines and ensuring accuracy and usability.
- Constructed commission modules for employees and customers in an ERP system, optimizing financial accuracy and automation, benefiting 100s of users and improving incentive efficiency by 50%.
- Architected an interactive front-end modal leveraging JSP, jQuery, Bootstrap, and JavaScript to fulfill consumer-specific requirements. Orchestrated seamless data synchronization by transmitting multi-pricing slab data to WooCommerce via Rest Template, optimizing pricing accuracy and minimizing manual data entry by 30%.
- Devised a solution to pinpoint the nearest company branch for deliveries using Google Matrix API, integrated with Shopify, enhancing delivery effectiveness, cutting down processing time by 75%, and cutting fuel consumption by 40%.
- Spring Boot, Spring MVC, JavaScript, jQuery, Rest APIs, PostgreSQL, GIT, Bootstrap, HTML5, CSS

Oasis Infobyte

Kanpur, UP

Java Developer Intern

2023.03-2023.04

- Utilized OOP principles to design scalable Java solutions, enhancing code reusability by 50%, and optimized algorithms to improve application consistency and efficiency.
 - Programmed applications leveraging Java, TailwindCSS, Bootstrap5, and Hibernate with MySQL.

EDUCATION

Harcourt Butler Technical University

2021.12-2023.07

Master of Computer Applications

Mahatma Gandhi Kashi Vidyapith

2018.07-2021.09

Bachelor of Science

PROJECTS

NamasteyChat – A Simple GUI-Based Desktop Chat App

Summer, 2022

- Crafted **NamasteyChat**, a real-time desktop chat application as a personal project using **Swing API**, **Core Java**, **AWT**, and **Networking**. Created an intuitive GUI and integrated seamless real-time messaging, improving performance and reducing latency by 30%.
